M-SERIES™ SPREADER

SMALL ON SIZE. BIG ON WORKLOAD.

Versatile. Accessible. Maneuverable. Reliable.

If you're a growing farm that's ready to take the next step in spreading, a lower-acreage farm that's short on storage space, or a large operation that wants versatility, the M-Series is right for you.

Featuring a compact design and low load height, the JBS Mini spreader offers maximum portability, making it perfect for small to medium-sized farm operations.

Engineered to be ultra-efficient, it runs with less horsepower than our E-Series and has a uni-body design that allows it to be shipped in many different ways.

Dimensions
