NARROW BODY SPREADER

ENGINEERED TO HANDLE EVEN THE SMALLEST SPACES.

The JBS Narrow Body manure spreader gets the toughest jobs done faster and easier.

Engineered to operate in more confined spaces like feedlots, it features the same innovative technology and durable fully-welded components as our Wide Body machines.

The JBS Narrow Body Spreader doesn't compromise on field compaction or capacity.

Thoroughly field-tested, it's guaranteed to function at the highest standards, like every machine we build.
