COMBINATION TRAILER

THE ULTIMATE IN OPERATIONAL VERSATILITY.

An industry leader, this fully welded heavy-duty trailer easily switches from a manure spreader to a forage trailer.

Ideal for long hauls getting to the field, helping to reduce the amount of equipment you need. It comes standard with a Vertimax, with twin vertical augers and a hydraulic guillotine gate, spreads up to 55', and handles all manure types and other materials.

With the capacity of the JBS Combination Trailer, you'll never again need to stockpile spreadable manure in the field.
