D-SERIES® DUMP WAGON

THE FASTEST DUMPING WAGON IN THE INDUSTRY.

The JBS Equipment Dump Wagon is a powerful and versatile option for those in need of a heavy-duty hauling solution. Available in Tandem, Tridem, and Quad axle configurations, this dump wagon dominates over its competition with its impressive features and capabilities. With the ability to hold up to an astounding 34,927kg of Silage, this dump wagon ensures that you can transport large quantities of material with ease and efficiency.

The Tandem, Tridem, and Quad axle configurations offer flexibility and stability, allowing you to choose the option that best suits your needs. Whether you are navigating rough terrain or maneuvering through tight spaces, the JBS Equipment Dump Wagon provides enhanced control and maneuverability to get the job done.
